

FIXED ASSET MANAGEMENT

CREATE ACCURATE FINANCIAL REPORTS, MAXIMIZE TAX BENEFITS, AND MEET COMPLIANCE REQUIREMENTS

Maintain complete visibility of your fixed assets and depreciation calculations. Fixed Asset Management maintains depreciation schedules for assets that you own, rent, or lease, and is fully integrated with all other financial modules. You can add fixed assets directly from AP purchases, import them, or add them individually—and track tax and reporting scenarios independent of general ledger postings.

KEY FEATURES OF FIXED ASSET MANAGEMENT

- **Multiple depreciation methods.** Choose from a large inventory of predefined depreciation schedules or create your own. Accommodate accelerated cost recovery system (ACRS), modified ACRS, straight-line, declining-balance, sum of years' digits, remaining value, flat rate, units of production, and other methods. Each depreciation method can include different averaging conventions as well as useful life and recovery periods.
- **Tax benefit support.** Take advantage of multiple depreciation books, multiple calendars, special depreciation bonuses, and tax benefit recapture capabilities to comply with complex tax rules.
- **Purchase order integration.** Convert purchases into fixed assets without re-entering data. Eligible purchases are automatically displayed to simplify the conversion process.

FIXED ASSET MANAGEMENT FEATURES AND CAPABILITIES

Multiple Depreciation Books

Create multiple depreciation books for tax and reporting purposes without updating the general ledger. Assign tax and reporting fiscal years that are independent of your actual financial ledger.

Multiple Asset Types

Manage multiple property types, including owned property, leases, rentals, and granted property. Track assets that are leased or rented to others.

Multiple Averaging Options

Select from different averaging methods such as full period, mid-period, next period, modified half period, full quarter, full year, and full day.

Fixed Asset Tools

Make mass changes to several fixed assets with one entry. Tools include depreciation schedule processing, releasing fixed asset transactions, converting purchases to fixed assets, and generating fixed asset calendars.

Fixed Asset Classes

Create fixed asset classes to group assets. Simplify entry of commonly used schedules.

Fixed Asset Reporting

Manage asset acquisitions, disposals, asset balances, asset net values, future projections, and depreciation transactions through built-in reports. Drill down to view transaction details.

U.S. Tax Bonuses

Support calculations required under IRS Section 179 for reduced first-year depreciable basis. Process reversals after early asset disposal.
